**\*Intern Virtual Pager: 9920**

**In addition to preparing for cases and reading about patients and problems you see in the clinic and hospital, read about high-yield topics. These will be discussed at didactic conference and on attending rounds.**

**Some suggestions:**

**Compartment syndrome  
Hip dislocation  
Hip fractures  
Developmental dysplasia of the hip  
ACL tears  
Ankle fractures  
Fracture terminology  
Open fractures  
Radiographic assessment of joint replacement  
MRI basics  
Carpal tunnel syndrome  
Rotator cuff tear**

**Suggested references:**

***Koval's - Handbook of Fractures***

***Browner and Jupiter***

***Netter's Concise Orthopaedics***

***Wheeless Online***

***Case Files: Orthopaedics***

***Orthobullets***

**Try to think about topics in a clear manner:**

**Etiology**

**Presentation**

**Dx**

**PE**

**Imaging**

**Rx**

**Outcomes**

**Complications**
